

Hosa Audio Cable Tester

Hosa Technology

Hosa Audio Cable Tester

Signal path continuity is the key to any successful show, studio session, or installation. The Hosa CBT-500 Audio Cable Tester verifies continuity on just about every cable audio technicians use in the field. This easy-to-use tester will ensure your cables are in top working condition, preventing unwanted surprises on the job.

With a simple turn of a knob, you can verify pin-by-pin continuity of microphone cables, instrument cables, even USB cables.

Compatible with the following cable terminations:

- XLR 3- and 5-pin
- speakON 2-, 4-, and 8-pole
- Phono (RCA)
- Phone (1/4 inch TRS and TS)
- 3-, 5-, and 8-pin DIN
- RJ45 (Ethernet)
- 75-ohm BNC
- USB Type A to Type B

The Hosa Audio Cable Tester is also equipped with removable test probes for continuity testing of bare wire and connector combinations not already found on the unit. Operation requires a 9-volt battery, which is included so you can put the tester to work immediately.
