

PRO
SERIES

Pro Stereo Interconnect, Dual RCA to Same

This cable is designed to interconnect pro audio gear with stereo phono jacks. It is ideal for use in touring and other live-sound applications. Features include:

- Silver-plated REAN® connectors for superior signal transfer
- 24 AWG Oxygen-Free Copper (OFC) conductors for enhanced signal clarity
- 90% OFC spiral shields for a higher signal to noise ratio

PRO
SERIES

Pro Balanced Interconnect, 1/4 in TRS to Same

This cable is designed to interconnect pro audio gear with balanced phone jacks. It is ideal for use in touring and other live-sound applications. Features include:

- Nickel-plated REAN® plugs for efficient signal transfer and superior durability
- 24 AWG Oxygen-Free Copper (OFC) conductors for enhanced signal clarity
- 90% OFC spiral shield for a higher signal to noise ratio

High Speed USB Cable, Flex A to Type B

This cable is designed to interconnect devices with USB interfaces. It is ideal for connecting an audio interface, USB microphone or instrument, or most computer peripherals to a PC. Features include:

- Pivoting Type A connector for use in tight workspaces
- Burst data transfer rates up to 480 Mbps (system dependent)
- Compliance with the USB 2.0 serial bus interface standard

USB 2.0 Hub, 4-port

The USH-204 USB 2.0 Hub is used to connect up to four devices to a single computer USB port. Powered via USB, it is ideal for use with external hard drives, audio interfaces, and MIDI controllers. Features include:

- Four USB ports capable of burst data transfer rates up to 480 Mbps
- Full compliance with the USB 2.0 serial bus interface standard
- Backward compatibility with all USB 1.0 specifications

Hosa Technology

beatport
DJ SERIES

Beatport Stereo Interconnect, Dual RCA to Same

Beatport DJ Series Stereo RCA Interconnects are used to connect the audio I/O of DJ mixers, turntables, CDJs, and select DJ controllers. They are strong but flexible enough to conveniently work in and around a DJ rig, and their unique color allows for easy identification during setup and teardown. Features include:

- Gold-plated REAN® connectors by Neutrik AG
- 24 AWG Oxygen-Free Copper (OFC) conductors
- 90 % OFC spiral shields

beatport
DJ SERIES

Beatport Balanced Interconnect, 1/4 in TRS to Same

Beatport DJ Series Balanced 1/4 inch Interconnects are used to connect the output of audio interfaces and select DJ mixers to studio monitors. They are strong but flexible enough to conveniently work in and around a DJ rig. Their unique color allows for easy identification during setup and teardown. Features include:

- Gold-plated REAN® connectors by Neutrik AG
- 24 AWG Oxygen-Free Copper (OFC) conductors
- 90% OFC spiral shields

beatport
DJ SERIES

Beatport High Speed USB Cable, Flex A to Type B

Beatport DJ Series USB Cables are used to connect a digital DJ's laptop to a DJ interface (Serato, Traktor, and others) or DJ controller. They are strong but flexible enough to conveniently work in and around a DJ rig, and their unique color allows for easy identification during setup and teardown. Features include:

- Burst data transfer rates up to 480 Mbps (system dependent)
- Compliance with the USB 2.0 serial bus interface standard
- Backward compatibility with all USB 1.1 interfaces

beatport
DJ SERIES

Beatport USB 2.0 Hub, 4-port

Beatport DJ Series USB 2.0 Hubs are used to connect multiple devices such as external hard drives and DJ controllers to a single computer USB port. They are powered via USB and are compact enough to work and travel with a DJ rig. Features include:

- Backlit Beatport headphone logo for high visibility on stage
- Four USB 2.0 high speed ports
- Meets USB 2.0 specifications for speeds up to 480 Mbps
