

EDGE SPEAKER CABLES

Edge Series Speaker Cables 200 Series

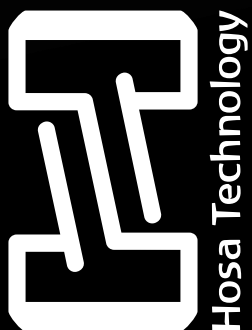

Hosa Edge Series Speaker Cables deliver the same quality-price ratio that Hosa customers expect in a highest-quality cable. Rather than invest in hype and fancy packaging, Hosa relies upon high-quality cable and connectors by industry-leader Neutrik AG for a lifetime of dynamic, noise-free sound.

Edge speaker cables feature 12 AWG Oxygen-Free Copper (OFC) conductors to reduce resistance and provide maximum signal transfer. Each cable is terminated with genuine Neutrik® connectors—the industry standard—for the most durable and reliable connection possible.

High-quality components, combined with a name synonymous with connectivity for 30 years, result in cables that are worthy of any stage or studio.
