

## Modular Synth Patch Cables

When it comes to modular synthesizers, it's all about the patch. As the signal jumps from one module to the next, it evolves into something new. The result is a unique sonic experience with a stunning visual roadmap formed by intricately weaved patch cables.

### Hopscotch Patch Cables

The ideal solution when a signal must jump to two places at once. Hopscotch Patch Cables are offered as a 5-pack of yellow, 1.5-foot cables or an assorted 5-pack featuring one of each available length.

- Easy-access pigtail jack for quick signal splitting
- Slim housings to fit crowded spaces
- Color-coded by length as listed below

**Hopscotch Cables Color Chart**

Color	Length (cm)	Length (ft)
Red	15	0.5
Orange	30	1
Yellow	45	1.5
Green	60	2
Blue	90	3

Length	Model
1.5 ft (45 cm)	CMM-545Y
Various Lengths (1 of each listed in color chart)	CMM-500Y-MIX

*Also Available*

### Unbalanced Patch Cables

The traditional Hosa patch cable 8-pack is vital to any modular synth rig. The series is available in four length options and each pack features eight assorted-color patch cables.

Length	Model
6 in	CMM-815
1 ft	CMM-830
1.5 ft	CMM-845
3 ft	CMM-890
